Phone: (902) 566-0839

The AVC Lobster Science Centre is proud to present the ‘**Lobster Biology and Handling Workshop Series.**’ The workshops are designed specifically for lobster fishers and buyers and include information sessions on: biology of lobsters, handling of lobsters for optimal health, possible future projects based on funding opportunities and a summary of current Lobster Science Centre projects. These workshops are completely free and will be taking place throughout Southwest Nova Scotia. We look forward to seeing you there!
